Wednesday 1 July 2020 **4pm-6.30pm**

REGISTER NOW!

We recognise that everyone has different starting points and set personalised targets to enable you to reach your potential and will be there to guide and support you to achieve every step of the way 

I'm delighted that you're interested in studying with us at Croydon College, the college of choice for young people and adults in Croydon and the surrounding areas.

Here at Croydon College we are proud to offer a wide selection of high quality vocational courses, an excellent range of courses designed to support adults back into education and also extensive courses to help develop your skills in English, Maths and English for Speakers of Other Languages.

So whether you want to be a plumber, scientist, beautician, teacher, lawyer, nurse, artist, designer, or even an England football manager, we've a course here to support your ambition. We work hard to ensure that by the time you leave us to progress to employment, an Apprenticeship, further study or Higher Education you have the skills and qualifications you need to thrive.

During your time at Croydon College we will work with you to reach your potential. We have high expectations and aspirations for all our students. We recognise that everyone has

different starting points and set personalised targets to enable you to reach your potential and will be there to guide and support you to achieve every step of the way.

As a college student we recognise that you are ready to study in an adult way. Our highly skilled teachers have relevant industry experience and expertise and they will support you not just to achieve your qualification at the highest level, but also to develop skills such as team work, resilience and independent study skills which you'll need to be successful in the world of work or Higher Education.

I'm very proud to say that Croydon College is a diverse and inclusive college, students and staff work together to support our core value of Respect, creating a welcoming, creative and supportive learning environment in which you can thrive.

I really look forward to welcoming you to our College.

CAIREEN MITCHELL
Principal and Chief Executive

Why choose Croydon College

Choice, choice and more choice

We offer the largest selection of vocational courses in the Borough. Our courses are tailored towards real working environments and our dedicated team of specialist teaching staff work hard to encourage every student to reach their full potential. Plus with the added course offering at Coulsdon Sixth Form College, there has never been a better time to join the Croydon Community.

Top Class Staff

Our teachers are some of the best in the business – friendly, experienced, full of ideas and real experts in their subjects. Above all, they are committed to helping you achieve your potential. They can share their up-to-date knowledge about the area or industry they have worked in, and give you practical tips and advice so that you make the most of your studies.

Fantastic Facilities

We have invested more than £60 million to ensure that the college provides top quality teaching spaces, social areas, a library, industry-standard facilities, software and equipment. This is across the board; each department has industry standard equipment giving you an advantage when you join the workforce.

Academic Support

Our qualified advisors are available to provide you with all the help and support you need to succeed and progress. Be it careers guidance, financial support or additional help with your learning; we have it covered.

Employer Links

We work with over 1,000 employers and have resourced a Careers Centre to ensure you have the best advice and opportunities. Whether it's a work placement you need or advice on how to enter a particular field of work, we have got the industry contacts.

Student Life

Our enrichment programme and our focus on citizenship provides opportunities to try new things to take your existing skills and interests further and meet new people – all great preparation for life after College. Plus every year, students compete in national competitions. Whether you want to showcase your talents at World Skills Competitions, The Skills Show or London Exhibitions to name but a few, we will support and guidance to help you win like so many past students.

Ofsted GOOD

Our most recent Ofsted report officially commended Croydon College as an overall 'GOOD' College. In fact all curriculum areas of the College that were inspected were commended as 'GOOD' too. So, whichever course you choose to study, it is 'GOOD'

Pathways into Higher Education

University Centre Croydon (UCC) offers a wide range of degree programmes awarded by the prestigious University of Sussex. You get top quality education, individual support, and employment opportunities right on your door step all at an affordable price.

DID YOU KNOW...? ↓↓

There are over 85 different languages spoken by Croydon residents, but English is the most common.

Your Study Programme

All our study programmes are tailored to the student's individual needs and abilities.

Vocational Programmes

These programmes are available at Entry Level 1, 2 and 3. They are vocational qualifications, which will prepare you for further study or employment related to a specific area of work. They have an emphasis on developing practical and creative skills. Employers really value the skills you will develop on a vocational course and Level 3 courses are also an ideal qualification for entry to university.

Apprenticeships

Apprentices learn on the job, building up knowledge and skills, gaining qualifications and earning a salary all at the same time. Apprenticeships are perfect if you are eager to earn straight away or already have an employer who will take you on as an Apprentice. You must have the potential to achieve Level 2 and/or Level 3 and to achieve further qualifications in Mathematics and English. You will be working for an employer, earning a wage and depending on your chosen career area, you will study at College on a block or day release basis.

English and Maths

Croydon College ensures all students have an appropriate level in English and Maths. For those students that haven't achieved a GCSE grade 4 or above, or an equivalent qualification, will have dedicated timetabled sessions and will be working towards achieving an appropriate qualification in English and Maths. You will see English and Maths being delivered and developed through all aspects of your programme of study.

If you are struggling with course choices, please contact the Admissions Team on **020 8760 5934** or **admissions@croydon.ac.uk**

NAME

Arnold Amoako

COURSES

Access Level 1

Why did you choose to come to Croydon College?

I needed to improve my English skills and this course offered what I needed. Plus it is local to me.

What have you enjoyed about your course?

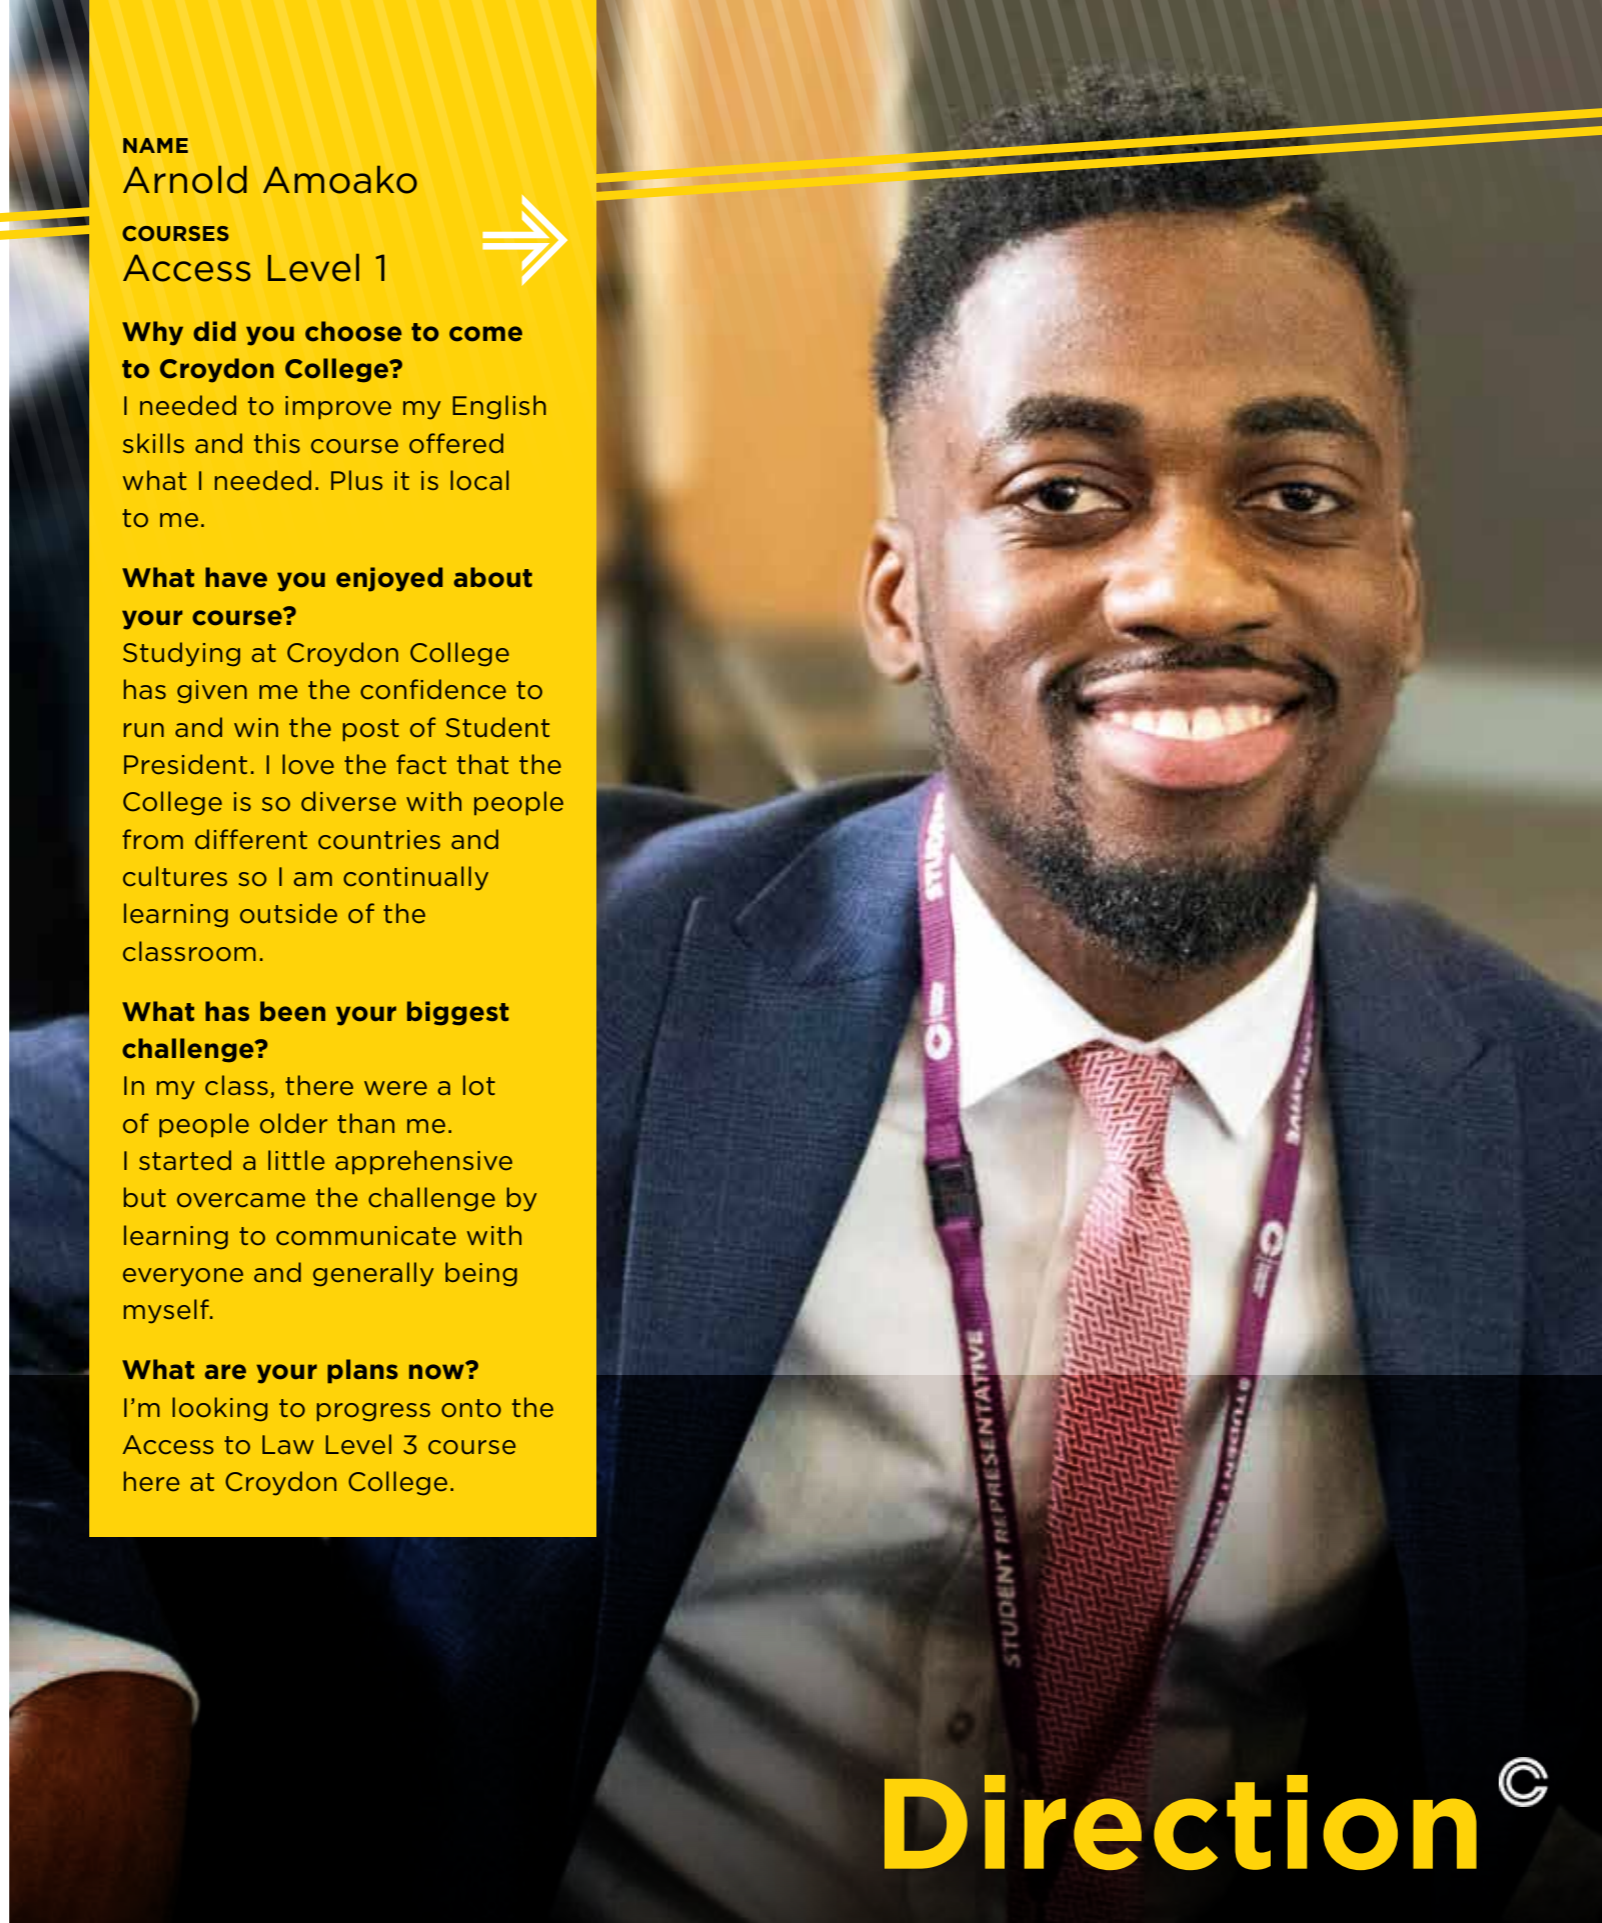

Studying at Croydon College has given me the confidence to run and win the post of Student President. I love the fact that the College is so diverse with people from different countries and cultures so I am continually learning outside of the classroom.

What has been your biggest challenge?

In my class, there were a lot of people older than me. I started a little apprehensive but overcame the challenge by learning to communicate with everyone and generally being myself.

What are your plans now?

I'm looking to progress onto the Access to Law Level 3 course here at Croydon College.

Direction

A guide to qualifications

Levels/Grades	What it means
PE	Pre-Entry
E1 - 3	Entry Level 1-3
L1-3	Level 1-3
GCSE Grades 1-2	Grade F-G
GCSE Grades 3	Grade D-E
GCSE Grades 4-5	Grade B-C
GCSE Grades 5-6	Grade B
GCSE Grades 7-8	Grade A
GCSE Grades 8-9	Grade A*

Entry Requirements

Applications are invited from everyone. We enrol students based on academic merit and potential irrespective of educational background.

Level 1

Students need to show evidence of a commitment to learn and the ability to study at this level, at the interview stage.

English and Maths assessed at Entry Level 2 or above.

Level 2

A minimum of 3 GCSEs at grade 3 (or grade D), including English or a Level 1 related qualification.

Mathematics assessed at Entry Level 3 or above.

Level 3

A minimum of 4 GCSEs grade 4 (or grade C) or higher, one being English or Maths or a related Level 2 vocational course at Merit or higher (if a Pass grade is achieved, GCSE grades and/or Functional Skills results can also be considered).

English and Maths assessed at Level 1 or above.

**Please note that our course entry requirements are subject to change*

Facilities, Resources and Pastoral

We have invested more than £60 million to ensure across campus, we provide top quality teaching spaces, social areas, library, industry-standard facilities, software and equipment.

Library and Learning Centre

Our state-of-the-art Library and Learning Centre offers a space to complete assignments with all the relevant information at your fingertips. It provides free Wi-Fi, a range of resources, information services and open access IT to support your studies. Library staff will be happy to answer your questions and can introduce you to Moodle, the College's virtual learning environment. You will also be able to track your progress using 'My Progress Tracker', keeping you up to date with your course via our Moodle e-learning environment.

Study Plus Learning

Located as part of the Library and Learning Centre, Study Plus offers academic and non-academic support to help you with your study programme.

In addition to offering Maths and English support, we also run a successful homework club for all students. We also offer one-to-one and small group support to students with learning needs.

The Study Plus team can offer face-to-face advice, support and guidance regarding issues such as financial support while students are here at Croydon College.

Careers Centre

Located at the heart of the College, this centre is the main point of contact for all things work-related including: finding temporary and part-time work, work experience, CVs, mock interviews, guest speakers and professional networking opportunities.

Specialist staff are on-hand to advise on UCAS applications, prepare you for interviews, and work with you to build a professional CV.

We recognise that our students need access to a wide range of advice and support to ensure your future success.

Financial Support

The College offers a range of financial support packages or bursaries. You can apply for financial support to help with costs associated with your study, such as, child care expenses or travel costs. All applications will be assessed on an individual basis.

We recommend that you apply early as funds are limited and demand is always extremely high. If you would like a more detailed discussion about the financial support which may be available, then please contact the Finance Department on finance@croydon.ac.uk

If you are 16-18 please talk to us about:

- Free school meals
- A bursary that we can pay you while you study at the College
- Help to buy books and equipment
- Help to pay for compulsory College trips
- Free bus travel and discounts on other services with the 16+ Oyster photocard
- Help with other travel costs

If you are 19 or over please talk to us about:

- Free courses at Levels 2 and 3
- Help to buy books and equipment
- Help to pay for College trips
- Discounted travel costs with the 18+ Student Oyster Card
- Help with childcare

Advanced Learning Loans

Students aged 19 and over can apply for Advanced Learning Loans to help pay for Level 3, 4 and 5 course fees. If you are successful for an Advanced Learning Loan, you will not need to pay anything back until you are earning over £25,000.

The Advanced Learning Loans are not means tested or credit checked and you can apply whether you are in employment, in receipt of Job Seekers Allowance (JSA) or Employment Support Allowance (ESA). The loan will be paid directly to Croydon College on your behalf. You can apply on line at www.gov.uk/advanced-learner-loan

Please call our Finance Department on 020 8686 5700 who can help you with your application form and answer any questions you may have.

To qualify for an Advanced Learning Loan you need to be:

- Aged 19 or over on the date you start your course
- You must usually be a permanent resident in the UK for three years prior to the start of the course
- Enrolling on an eligible Level 3, Level 4 or Level 5 course including: Vocational courses and Access to HE Diploma

DID YOU KNOW...? ↓

- Student Finance England will write off the loan for the Access to University course if you progress and complete one of our University courses
- The average bursary payment for academic year 2017/18 was £50 per week
- You may also be eligible for free childcare

Supportive

Student Life

Croydon College is a hub of activity outside the classroom. Getting involved in extra-curricular activities will add to your range of skills and life experience, all of which improve your future prospects in the workplace, on university applications and apprenticeships.

Student Representation

Led by the students, Student Voice works as a channel of communication between the student body and senior management at the College. If you would like to play a democratic role and represent your fellow students then you can run for election to help grow the College community.

ACT!

In July 2017, in recognition of our outstanding citizenship provision, we were the first Further Education College to be awarded the Association for Citizenship Teaching Quality Standard.

College Events

Croydon College is proud to support many events around the campus all year round. From The Healthy Lifestyle Campaign, Cultural Awareness Month, World AIDS Day and Faith Awareness Week, we know it is important to offer you the opportunity to develop and grow as a person while at College. All the events are supported by guest speakers, offering you hands-on knowledge from the people who know.

Common Room

The Student Common Room is a place where you can relax and make new friends during your breaks. You can make use of a variety of games consoles, play board games, pool tables and table tennis.

Alumni

Croydon College have had some brilliant minds come through the doors. We like to keep in touch with all our students through the alumni. Here is just a few of the students who have worked hard and gone on to amazing things after College.

Coming to Croydon College allowed me to follow my dream – and for that dream to come true.

John Rocha // Fashion Designer

After graduating from the School of Creative Arts & Higher Education, John Rocha first established a name for himself with his Chinatown label in Dublin in the 1980s. He runs his own fashion labels alongside his diffusion clothing, homeware and accessories label for the department store Debenhams. In 2002 he was awarded a CBE for his contribution to the British fashion industry and in 2013 he helped to re-launch the School of Creative Arts & Higher Education at Croydon College.

Cllr Manju Shahul-Hameed // Mayor of Croydon during 2014/2015

I attended Croydon College to do an Access Course in Mathematics and Computer Science. The Access Course enabled me to study Masters in Scientific and Engineering Software Technology at the University of Greenwich. Since 2000, I have been working as a Software Engineer. Croydon College has played an important role in my success as it had the right careers advisor and the right course for me to reach where I wanted to get to.

Alexandros Pamnani // Analyst at J.P. Morgan in Canary Wharf

Studying Mechanical Engineering at Croydon College was undoubtedly a transformational experience. I found the tutors to be extremely enthusiastic and always willing to go the extra mile to help you succeed. Also, as a former Student President of the college, I found the diverse and engaging nature of the student body to be a highly enriching experience. As a result, I gained a rounded yet academically rigorous education that helped me progress onto university as an Ironmongers' Scholar. In 2014, I graduated with a First Class Honours degree in Engineering and currently work as an Analyst at J.P. Morgan in Canary Wharf. I believe the experience I gained at the college will be of value throughout my career.

Noel Fielding // Comedian, Actor, Artist & Musician

Noel Fielding is best known for writing and starring in The Mighty Boosh along with comedy partner Julian Barratt. He also appears as presenter for The Bake Off alongside Sandi Toksvig.

FKA Twigs // Singer/Songwriter/Producer

FKA Twigs first entered the music industry with the release of her extended plays EP1 (2012) and EP2 (2013). Her debut studio album LP1 (2014) peaked at number 16 on the UK Album Chart and number 30 on the US Billboard 200. Her third extended play, Melissa, was released in 2015.

Ambition

Your Future, Your Way

Here at Croydon College we understand you are looking to the future and where your education will take you. Whether you are looking at university, an apprenticeship or getting into the workplace, Croydon College is committed to helping you achieve your potential.

Everything at Croydon College is designed around the student. Offering market leading facilities across all departments, specialist teachers and impressive teaching spaces, the College ensures you gain up-to-date skills preparing you for your future.

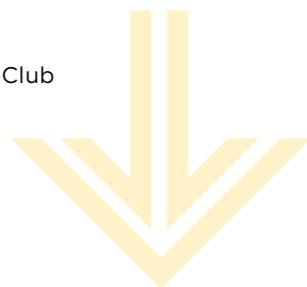

Employability

Courses at Croydon are developed to include key attributes which employers and universities say are important, such as teamwork, problem solving, and communication skills. Many courses offer you the chance to work in the industry through work placements, visits and projects.

We have a real focus on English, Mathematics and Digital Skills. All these skills are vital for your future success, either in higher education or employment.

Links with employers are key to your success. Our links locally and nationally with recognised organisations mean we can ensure what you get taught in the classroom, is relevant to your career path. Some of the companies we work with include:

- Allianz
- Croydon Council
- Crystal Palace Football Club
- EstéeLauder
- Dermalogica
- Marks & Spencer
- Metropolitan Police
- Ministry of Defence

DID YOU KNOW...?

All Croydon College students are guaranteed an offer of a place at UCC, subject to meeting the entry criteria for your chosen course. Just apply for the course in the normal way and we will write to confirm the offer. Any questions or if you need help with your application, visit Student Services.

University

All of our Level 3 courses will allow progression into University. Many of our students are so pleased with their time at Croydon College that they choose to stay and continue to study with us at our University Centre Croydon (UCC). In partnership with the prestigious University of Sussex, students enjoy the smooth transition between Level 3 and degree level courses.

As a UCC student you will have access to extra facilities including the Social Learning Space. As a Croydon College student, you will be able to meet UCC students and find out about the range of opportunities available to you. UCC offers the chance to gain a top quality degree from the University of Sussex, staying local and not having the other added costs sometimes associated with going to university. You can read more in the UCC prospectus, available from Admissions.

NAME

Linda Sowah

COURSE

Level 2 Hairdressing

What made you choose to study at Croydon College?

I'd heard great reviews from family and friends about the College, plus it is close to home and easy to get to.

Why did you want to study Hairdressing?

I really enjoy doing people's hair, making them look good and feel more self-confident.

What have been your highlights?

I've experienced outstanding teaching this year. The skills I've developed and the

opportunities of working in a salon have been brilliant. Practicing on live clients in the College salon has really helped with my hair skills and confidence. I've also been able to learn how to satisfy the needs of every client

Have you had any major challenges?

Having to juggle family life, child care and education has been difficult at times. I realised that I have to continue to be optimistic, keep encouraging myself and always turn up with a ready to learn attitude.

What is next for you?

I've gained enough knowledge and confidence to be accepted onto the Level 3 Hairdressing course.

Courses

Croydon College offers a wealth of courses at all levels to suit everyone. All students need good English and Maths skills to be successful in studying and for future employment prospects and so Croydon College ensures that these skills are developed in all learning opportunities.

We offer a generic Level 1 course which gives you the basic skills for many of our Level 2 courses.

Level 1 Progression to your chosen Level 2

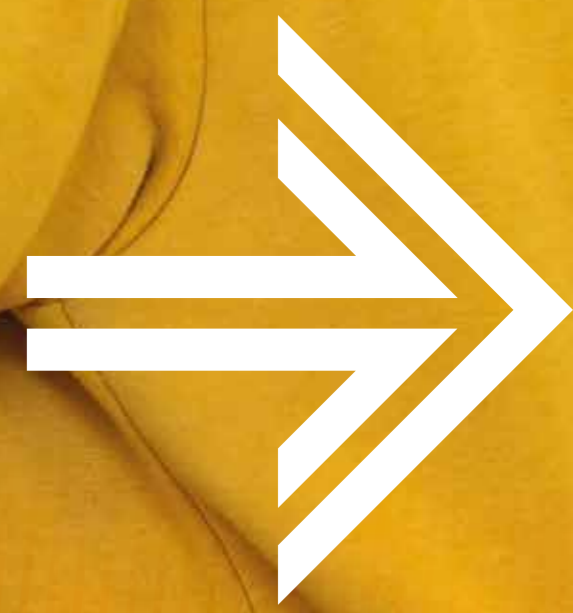

Course Content

The Level 1 Introductory Certificate prepares students to improve their knowledge and study skills that will then enable them to undertake study at Level 2 in a subject area of their choice. The course combines some practical activities as well as theory to give students an overview of a wide range of subjects allowing them to build on their study skills and gain important knowledge that will help them be successful in their chosen study or careers.

Progression

There are lots of industry opportunities and it is very diverse and growing, students who study vocational studies can go onto study or work in:

- The Sport Industry
- Business and Management
- Health and Social Care
- Public Services
- Travel and Tourism

Art & Design and Fashion

Art & Design

These creative courses will offer you the opportunity to work with a wide range of art and design materials, techniques, and processes in our subject specialist studios and workshops. Exploring a wide variety of hands-on creative subjects that will develop and build on your natural artistic abilities. You will undertake a range of projects that include, and combine, photography, drawing, sculpture, three-dimensional design, printmaking, textiles and surface design, graphic visual communication, illustration, and painting.

Taught by art and design specialists, you are encouraged to take an experimental and open minded approach to exploring ideas which challenge and develop creative thinking and making skills. Guided by your tutor, you will grow in confidence and will develop the skills to achieve your potential.

We have great facilities here at Croydon School of Art; photographic dark rooms, print studio, plaster casting studio, 3D workshop, film studio, drawing studio, many Mac suites, and video and film editing facilities with great technical support.

Please note that the college will provide some materials and equipment whilst you study. However, there is an expectation of additional material costs of approximately £30 per term. Day trips to galleries and other places of interest usually cost between £25-30

within the year. You may be eligible for a bursary and this should cover the cost of equipment.

Fashion

This course is aimed at those students who will thrive on being challenged creatively as it will develop your skills in research, design development, pattern making, and garment construction. You will grow as a designer, illustrator, pattern cutter, and machinist. You will receive weekly feedback from staff and peers, with more formal feedback given at the end of each project. This allows you to receive positive and constructive advice on your work throughout the project. You will also have a clear understanding of meeting deadlines and expectations.

Working in a creative and inclusive environment, our excellent facilities include our purpose built fashion studios, and our excellent resources that will support your learning and develop your understanding of fashion design, print, and textiles. You will work and collaborate with our experienced staff who have the relevant skills and connections to the industry to help you achieve your potential.

Construction and Building Services

➔ These courses will provide you with the basic skills and understanding needed to work in the construction industry. You will learn introduction to a variety of skills including brickwork, plastering, woodwork, painting and decorating, and tiling, as well as an introduction to the background knowledge required to succeed. All of these skills are in demand in the industry so you can decide which construction route suits you best.

Plumbing

This course is for learners who want to work as plumbers in the building services engineering sector. This qualification does **not** make candidates fully qualified plumbers but will allow you to learn, develop and practise the skills required for employment and/or career progression in the plumbing sector. It covers subject such as; Hot and Cold water systems, Common plumbing processes, Central heating systems, Drainage systems and Electrical principles and processes.

Maintenance

This course will provide you with the practical skills as well as the knowledge and understanding of construction to allow you to pursue a career in this industry. You will learn the basics of how buildings are constructed and how to recognise the common defects in different parts of a building. You will be able to treat and repair these defects to industry standards.

Throughout this course you will study a range of subjects, including repairs, diagnosing defects, wall construction, developing customer relations, and health and safety practices.

Construction

The Level 3 Extended Diploma is designed for those who wish to work in the construction industry as a manager or professional worker in the field of site research, site management, cost control, or building design. This course is mainly theory based and it will develop the skills that you will have learnt on a Level 2 course.

Engineering

Engineering

This course is designed for those who have an interest in engineering, with a desire to have a career within this sector. We will provide you with the practical experience and the technical knowledge to work in the engineering industry. Each level builds on the knowledge and skillset you learnt in a previous level. You will learn the basic fundamentals of mechanical engineering through a combination of theory lessons and practical work in our contemporary engineering workshops.

During the Level 1 course you will study a range of subjects, including wiring electrical circuits, making engineering components, interpreting and using engineering information, using the bench drill, health and safety practices, and various employability units.

Throughout the Level 2 course you will study a wide range of subjects, including engineering marking out, interpreting and using engineering information, using CAD, casting and moulding, and health and safety practices.

On Level 3, you will study nine units each in both the first year and the second year. This will cover a range of subjects, including mechanical/electrical principles, mechanical systems and measurements, engineering drawing/design, CAD, fluid dynamics, and health and safety practices.

Electrotechnical Technology

This course will expand your knowledge and skills in order to work in the electrical installation industry. You will learn the intermediate skills of electrotechnical technology through the combination of theory lessons and practical work in our modern, well-equipped workshops. The course will also develop your confidence to conduct repairs and carry out fault finding on electrical circuitry.

Throughout this course you will study a range of subjects, including testing dead circuits, safe isolation procedures, comprehensive metal working skills, and conduit and trunking.

COURSES

Hair and Beauty

Hairdressing

The Level 2 course has been designed to develop your practical skills in a broad range of women's hairdressing skills. You will develop a sound knowledge and understanding of theory to each unit and gain the employability skills needed to become a successful hairdresser. You will also be expected to participate in relevant work experience. Units include Working in the Hair Industry, Follow Health and Safety, Client Consultation for Hair Services, Shampoo and Condition the Hair and Scalp, Promote Products and Services to Clients, Cut Women's Hair, Colour and Lighten Hair, Perm and Neutralise Hair, The Art of Dressing Hair, Create an Image Based on a Theme within the Hair and Beauty Sector and Salon Reception Duties.

The Level 3 course develops and builds on the skills that you will have learnt on a Level 2 course, enabling you to become an advanced, highly qualified and professional hairdresser and enhancing the skills needed for employability or university pathways through UCAS. This programme will consist of theory and practical sessions, developing your skills in advanced cutting, colour correction and the application of creative colour, style and dressing hair and creative hair design skills.

Beauty

You will develop the necessary knowledge, understanding and skills to provide facial skincare, eyelash and brow treatments, waxing techniques, manicure and pedicure treatments and applying makeup. You will also develop the knowledge and skills required regarding client care and learn how to comply with health and safety requirements in the salon. You will also be expected to participate in relevant work experience.

Spa Therapy

This course will develop and build upon the techniques that you will have learnt on a Level 2 course, enabling you to become an advanced, highly qualified and professional spa therapist. This programme will consist of theory and practical sessions, developing your advanced beauty skills in areas such as face and body electrical treatments, body massage, hot stone therapy, flotation and various spa services.

Hospitality and Catering

⇒ These courses are designed for those who are keen to pursue a career in hospitality and catering establishments. This programme will develop your knowledge and it will teach you a variety of catering craft skills to a high standard. It will provide you with the latest skills and approach to hospitality industry practices, food safety, and health and safety. It will also give you a good foundation in a wide range of cooking skills to apply across a variety of catering contexts. All of this is essential grounding for those keen to progress in catering and to develop high standards.

Practical work features strongly in this course. You will learn how to prepare, cook, and present a range of food items which will include meat, fish and poultry, vegetables, soups and sauces, and desserts.

COURSES

1 LEVEL ONE

Culinary Skills

2 LEVEL TWO

Diploma Culinary Skills

3 LEVEL THREE

Professional Culinary Skills

IT

The courses will help you build up a portfolio of coursework and experience to support your future career. On the Level 2, you will learn about topics such as the online world, website software and computer networks. On the Level 3 course, you will experience both theoretical and practical study of both computer and IT related topics. The computer systems unit will equip you with the knowledge to build, upgrade, and configure computers and software applications. You will follow a wide range of units designed to provide an excellent platform for learners wishing either to progress towards a course in higher education or to enter employment in the IT industry.

The courses include a wide range of activities which include role plays, presentations and practical sessions which lend themselves to real life projects. These projects can include installing computer hardware and software, designing and creating websites and games including an introduction to basic coding.

We have fantastic, state of the art resources and you will be taught in well-equipped classrooms, with interactive whiteboards and the latest technology, including class iPads and our virtual learning environment.

BTEC National Foundation Diploma IT

Media, Film and Animation

Creative Media

This course is carefully created to support you if you have any art, design, creative, or even IT backgrounds to develop your skills through new approaches in design and technology.

You will be shown how to build a creative portfolio through a range of digital and practical activities based around learning to be a designer or digital artist whilst working in many different creative processes.

You will have access to our great facilities at Croydon School of Art, including our specialist computer suites, studios, workshops and classrooms and you will be supported by subject tutors using our specialist resources.

Filmmaking and Photography

This course will allow you to explore a wide variety of hands-on photography and video production activities that will develop and build your natural artistic abilities. You will undertake a range of projects that explore concept development, pre-visualisation, shooting and editing and you will learn to use Adobe Photoshop, Premier and After Effects for editing and special effects. This course also explores the history of film and photography, from the first photography to contemporary special effects. In the second year you will specialise in your chosen area of lens based media and you will build on your existing skills to reach an advanced level.

Animation

This course is taught by staff from specialist animation and graphics backgrounds. You will undertake a range of projects that enable you to gain skills in both digital and 3D stop animation. You will benefit from the great facilities that we have here at Croydon School of Art, including a 3D stop animation suit, green screen facilities, many Mac suites and video and film editing facilities with great technical support.

This course is aimed at those students who will thrive on being challenged creatively as it will develop you skills in research and design development.

Performing Arts and Music

Music

The Level 2 course is for aspiring Music Performers or Music Producers with some knowledge of performing or producing music. You will experience an active learning environment where you will be developing your skills as a performer or producer.

The Level 3 course is for practicing Music Performers or Music Producers with experience of performing or producing music. You will experience an active learning environment where you will be developing your skills as a performer or producer. In the first year you will explore a wide variety of musical subjects that will enhance and build your abilities as a performer or producer. In the second year, you will develop your specialist skills within your chosen area of music

Performing Arts

These courses are for aspiring performers, with some knowledge of acting and drama. You will experience an active learning environment where you will be developing your skills as a performer.

On the Level 2, you will explore a wide variety of performing arts subjects that will allow you to experience all aspects of working in the performing arts. You will also undertake a range of projects that include script writing, stage craft, lighting, technical theatre and acting and performing skills.

On the Level 3, you will explore a wide variety of performance and production arts subjects that will develop and build your abilities as a performer or producer. You will undertake a range of projects that include script writing, stage craft, lighting, technical theatre and acting and performing skills. In the second year you will develop opportunities for individual creative expression within a performing and production arts context. By working collaboratively, you will stage productions that test and enhance your performance and technical skills.

Public Services

This Uniformed Public Services course is a brilliant option for people who are seeking to develop their skills and knowledge in preparation for a career within the emergency services, police, fire services, military, security work and the navy.

This course covers a range of topics that are relevant to the uniformed services such as citizenship and diversity, crime and the impact on society, sports and recreational science and expedition skills.

You will also benefit from external trips and camps where you develop your map and compass skills, team work skills and leadership skills which are all integral to the uniformed services.

We have excellent links with the Ministry of Defence (MoD) and other services to enrich your experience of learning about the uniformed services.

Science

Science covers a wide range of scientific disciplines and is a good choice if you are interested in developing an understanding of science and how to solve scientific problems. Both courses are made up a number of core and optional units.

As part of the Level 2 course you will be able to undertake your own scientific research project as well as completing practical assessments. Other units in the course will cover aspects of physics, chemistry, biology, the environment, health and disease, and the universe.

In the first year of the Level 3 course you will study a number of core and specialist units, depending on your entry qualifications. You will be guided through your own scientific research project as well as units in scientific practical techniques, laboratory design, and physiology.

In the second year, you can choose one of three pathways. This includes applied science, forensic science, and medical science. Each pathway has been designed to enable you to pursue various career goals.

Apprenticeships

Want to earn a wage, develop work-based skills and learn at the same time? If you thought learning was something that could only happen in a classroom, then think again. Our Apprenticeships will provide you with a challenging and rewarding experience.

An Apprenticeship gives you the opportunity to combine on-the-job and off-the-job learning and helps you develop valuable workplace, professional and academic skills in your first step towards a successful career.

Apprenticeships are work-based training programmes designed around the needs of employers; they lead to nationally recognised qualifications and are available in a wide variety of industry sectors, with employers ranging from large national companies such as Sainsbury's and BMW to smaller local companies. Around 150,000 employers offer Apprenticeships in more than 200,000 locations. Croydon College is one of South London's leading providers of Apprenticeships, so it is a great place to start your journey.

Apprenticeships are available at Intermediate, Advanced and Higher (degree) levels, covering more than 170 industries and 1,500 job roles.

If you want to learn the trade of your choice and earn as you go, an Apprenticeship might just be the thing for you.

Access Courses

Our Access courses are specifically designed for motivated individuals aged 19 and over who wish to study a degree course at Croydon College.

Our range of courses include:

- Business Management & Law
- Computing
- Criminology & Psychology
- Nursing
- Nursing & Health Sciences
- Science
- Social Work
- Health and Social Care
- Primary Teaching
- Engineering

All students who successfully complete a Level 3 Access course are guaranteed an offer on one of our Higher Education courses.

Testimonials

I wanted a career in construction with a physical role and the opportunity to use my brain. I enjoy problem solving so pipe fitting seemed the natural trade to pick. It's hard work but really rewarding plus I get to work with a good group of lads.

Steve, Apprentice \ Battersea Power Station

I feel that I am now much more useful as an employee because of the skills I have learnt through my Apprenticeship with Croydon College. I am more employable and as a young person feel that gaining basic skills with the college and experience with my employer will set me in good stead for my future career in hospitality.

Shanneka, Hospitality Supervision and Leadership Apprentice \ Beanies

I always wanted to become a teacher before I came to the College, but I didn't know how to become one. Croydon College gave me a step-by-step plan to get where I wanted to be. I wouldn't have known about the opportunities available to me if I hadn't studied my apprenticeship here.

Christina, Apprentice \ Children and Young People's Workforce

Our Apprentice, Leisha, is fantastic; she has an incredible attitude and work ethic, and is a credit to the salon and Croydon College.

Ludovic Jehanno, Co-Owner \

Mikael & Ludovic Hair salon, Warlingham

Who we work with

Below are some examples of the Employers Croydon College Apprentices work with:

Skills for Progression Study Programmes

Skills for Progression study programmes are for you if you are unsure of your next steps towards your chosen career or if you are living with a moderate disability or difficulty. As a part of your study programme you will also improve your English, maths and employability skills – all of these are vital if you plan to get a job, live independently or progress onto another college course

There are two types of study programmes depending on your needs and goals:

Vocational Pathways: These courses offer an introduction in different vocational subjects including maths and English. You will also improve the skills you need for work or to progress onto Further Education.

SLDD: This course is for those with moderate learning difficulties or disabilities. They are designed to either prepare you for the work place or to be able to live independently. Depending on your chosen course we also offer work experience opportunities within the college so that you gain knowledge of a working environment.

Entry Level 2/3

⇒ Step up to Work (SLDD)

Duration: 1 year

Course Level: Entry Level 2, Entry Level 3

Course Overview

Foundation learning courses are for you if you have a recognised SEN and are looking for support with your learning. They are designed to provide you with the skills needed to move onto a mainstream course, gain work experience and develop independent life skills. This course offers support for those who wish to move on to work.

Entry Level 3

⇒ Foundation Learning Pathways (Business Administration, Travel and Tourism and Creative Media)

Duration: 1 year

Course Level: Level 3

Course Overview

This course is for you if you have not achieved at GCSE level and wish to work towards gaining a vocational qualification and improve your literacy, numeracy, IT and employability skills.

You will have the chance to try out pathways in Business Administration, Travel and Tourism and Creative Media as one vocational taster per term.

Entry Level 3

⇒ Foundation Learning Pathways (Construction and Introduction to Vehicle Technology)

Duration: 1 year

Course Level: Level 3

Course Overview

This course is for you if you have not achieved at GCSE level and wish to work towards gaining a vocational qualification and improve your literacy, numeracy, IT and employability skills.

You will have the chance to try out pathways in in Construction and Introduction to Vehicle Technology as one vocational taster per term.

ESOL - English for Progression/English for Speakers of Other Languages

We offer English for Progression courses from beginner to advanced level to give you the language skills you need to progress onto vocational or academic courses and give you the skills and qualifications needed to go on to Higher Education or employment.

You will improve your speaking, listening, reading and writing skills on our ESOL courses, as well as develop your teamwork, personal and social skills. You will also have strong support from your personal tutor to help you. Staff and students organise many events including Cultural Awareness Month, Healthy Lifestyle Week, Refugee Week, the UNICEF Pledge Awards, football and a variety of other activities outside of your course. These events help you practice your English and meet other students.

ESOL

These classes will help you to improve your English so you are able to go onto the next level or onto a vocational course. You will develop these skills:

Reading, Writing, Speaking and Listening:

You will take exams at the level which is right for you and according to the progression you have made. You will receive help from experienced teachers.

Employability Skills: You will develop your self-confidence and skills to support your future career.

Maths and ICT Skills: You will develop your ICT and Mathematics skills to meet the demands of everyday and/or work situations. You may take functional skills exams in maths and/or ICT.

⇒ English for Progression - (ESOL)

Duration: 1 Year

16-18 Levels: Pre-Entry, Entry Level 1, Entry Level 2, Entry Level 3

19+ Levels: Pre-Entry, Entry Level 1, Entry Level 2, Entry Level 3, Level 1, Level 2

Course overview

This course is for you if you speak English as a second or other language. The course will help you if you have had a few years at secondary school or are have been in the UK for a short time.

We offer exciting classes in lots of different subjects to help you at different levels from very little English (Pre-Entry) to Level 1 which is the highest level we offer.

As well as improving your speaking, listening, reading, and writing skills, you will prepare to progress to either an academic or vocational course. You will also improve skills which will help you in the world of work including maths, ICT, learning how to have good relationships, and finding solutions to problems.

You will have a personal tutor who will help you be successful and make sure you are prepared for your next steps in learning.

You will also improve the skills you need to either get a job or improve the skills you already have such as working in a team, communication skills and researching different careers. You will have the opportunity to attend different events at the College which are attended by employers so you can find out about different career choices.

Assessment

The employability parts of this course are assessed in activities which you do in class. English, maths and ICT are assessed by exams.

Career Opportunities and Further Study

You can progress from one level of this English for Progression course to the next. After Entry Level 2 you are ready to progress into employment or on to a vocational pathway to develop further your skills.

Entry Requirements

There are no formal entry requirements. We test your abilities before you start and place you on the course that best fits the skills you already have.

You must show at interview that you are committed to full time studies and keen to develop all of your work skills, not just your English.

Please note: Due to the period between prospectus publication and registration, circumstances may change due to factors beyond our reasonable control and therefore it may sometimes be necessary to vary the content of the course or services described in the prospectus. We will use all reasonable endeavours to ensure that changes are kept to a minimum, but if we are required to make any material changes to your course (as described in the offer letter and/or prospectus) before you register at Croydon College, we shall bring these to your attention as soon as possible and if you reasonably believe that the proposed change will prejudicially affect you, you may cancel the contract and withdraw your application for the course without any liability to us for course fees (even if the cancellation period has expired).

We will use all reasonable endeavours to deliver all courses described in the prospectus. However, if there are not sufficient applicants either to make a course viable or to deliver a quality student experience, we may cancel the course. If you have received an offer for any course described in the prospectus, but we discontinue the course prior to you registering at Croydon College, we will notify you as soon as possible and we will use reasonable endeavours to provide a suitable replacement course for which you are qualified. If you are unhappy with the replacement course provided by us or if we are unable to provide a suitable replacement course, you may cancel the contract and withdraw your application without any liability for course fees (even if the cancellation period has expired).

The latest information about our courses will always be available on our website www.croydon.ac.uk
