College

A young boy with short brown hair, wearing a white t-shirt and bright green shorts, is walking away from the camera on a large log in a forest. The background is a lush green forest with other people blurred in the distance. A semi-transparent purple box with diagonal lines is overlaid on the bottom left of the image.

TQUK Level 2 Certificate in Understanding Autism (RQF)

Course overview

Statistics show that 700,000 people in the UK are known to be on the autism spectrum – approximately 1 in 100. With this figure likely to be even higher given how many may yet be undiagnosed, it is vital that knowledge and understanding of autism is increased.

This course will equip learners with a detailed understanding of autism, including the different types of autism, the triad of impairments, related conditions such as Sensory Processing Disorder, legislation and guidance relating to autism, and best practice for autism.

Learning method

Studying via distance learning means you can choose when and where you study.

This course is available:

Online

All of our award-winning learning resources are of the highest quality and are designed to be engaging and interactive to keep you focused on your learning at all times.

Who is suitable?

This qualification is aimed at anyone who wishes to develop an in-depth knowledge of autism, including the signs and indicators of autism, the legislation, support and guidance available for individuals with autism, and the ways autism affects different aspects of an individual's life. Individuals will also learn about best practice when interacting with individuals with autism, including managing their sensory needs and behaviour.

TQUK Level 2 Certificate in Understanding Autism (RQF)

What you will learn

This course is split into four manageable units:

Unit 1:

Signs, indicators and diagnosis of autism

Unit 2:

Sources of information, support, legislation and guidance relevant to autism

Unit 3:

Living with autism

Unit 4:

Best practice relating to autism

Benefits

- Gain a nationally recognised qualification
- Create a long-standing career pathway within the health and social care sector
- Courses are delivered via distance learning, allowing learners to choose when and where to study
- Increase your awareness of autism and be able to better support individuals with autism on both a personal and professional level
- Engaging and interactive activities that stretch learners' thinking and help put their new, extended knowledge into practice
- Study will develop learners' knowledge, skills and confidence to enhance their future work and life.
