

ART SAVED ME

What is this about?

Transform your creative vision into reality through our comprehensive art, design, and fashion workshop programme. Students will collaborate directly with industry professionals spanning fashion design, videography, photography, and graphic design, gaining authentic insights into creative careers and current industry practices. This hands-on programme culminates in participants receiving official certificates of completion and lifetime membership to our alumni network of like-minded creatives, providing ongoing mentorship and collaboration opportunities beyond the programme. The highlight of the experience is an end-of-programme showcase where students present their work to parents, peers, and staff, celebrating their creative growth and achievements. This programme builds both technical skills and professional confidence while fostering artistic expression and career exploration.

Location?

Croydon Campus, Green Room, Lower Ground Floor

Day(s) and Timings?

Every Tuesday at 2pm to 3pm
