

Fantasy Aviation

What is this about?

Embark on an exciting journey into the aviation industry with our pioneering programme designed to promote diversity and inclusion in aviation careers. This comprehensive course brings together experienced pilots from leading airlines, aviation professionals, and flight training organisations to provide authentic industry insights and hands-on training experiences. Participants will work with qualified and vetted professionals who are passionate about launching people from ethnically diverse backgrounds and women into aviation careers. Students will receive official certification documenting their participation in the Fantasy Wings programme, providing valuable credentials for future educational and career opportunities. This programme offers a unique gateway into understanding aircraft operations, aviation safety protocols, and potential career pathways in this dynamic industry.
