

Pretty and Polished

What is this about?

Express creativity and develop entrepreneurial skills through our student-led nail art programme. These sessions combine artistic expression with practical business skills as participants learn various nail art techniques, colour theory, and design principles. Student leaders develop teaching and leadership abilities while sharing their expertise with peers. This programme builds fine motor skills, attention to detail, and creative confidence while exploring potential career pathways in beauty and wellness industries. The collaborative, peer-led format creates a supportive environment where students learn from each other while developing both artistic and interpersonal skills.

Location?

Croydon Campus, Lower Ground Floor,
Green Room

Day(s) and Timings?

Every Thursday at 3pm to 4pm
